P24195.A06

AMENDMENTS TO THE CLAIMS

The claims in this listing will replace all prior versions, and listings, of claims in the application.

LISTING OF CLAIMS:

1. (Currently Amended) A rhombic vertebra body plate for a vertebral column fixing system comprising:

a main body portion having an approximately a generally point symmetric shape around a point in which a first diagonal line connecting a pair of acute angle portions having acute angles opposing to each other, crosses a second diagonal line connecting a pair of obtuse angle portions having obtuse angles opposing to each other;

a least one screw insertion hole provided on the first diagonal line of the main body portion or on the second diagonal line; and

a least one spike provided on each of the first diagonal line and the second diagonal line of the main body portion and extending therefrom.

- 2. (Currently Amended) The vertebra body plate of claim 1, wherein the <u>at least</u> one spike is formed in an approximately provided with a generally V-shaped in cross section.
- 3. (New) The vertebra body plate of claim 2, wherein the V-shaped cross section is perpendicular to the direction of penetration of the at least one spike.
